How to Track Your Order?

- Go to [Your Orders](#)
- Identify the order that you want to track.
- Select Track Package next to the selected order.
- Select 'See all Updates'. The status of the order will have the details of the courier partner.

Important Notes

1. Multiple items: If your order includes multiple items, each item may have a separate delivery date and tracking information.
2. Seller-shipped items: Items shipped by sellers can be tracked only if the seller has shared order tracking information with Amazon. If you have chosen a traceable shipping method, you can also get the details.
3. Courier information: Find details about delivery partners on the [Our Courier Partners](#)

How to Identify the Delivery Partner?

Your order can be delivered by Amazon or a third-party courier.

- Items delivered by Amazon have the following Amazon-delivered logo in the product description.

Amazon
Delivered

- Seller-delivered products on Amazon have this message on the product detail page: "Sold by (seller name) and Ships from (seller name)".

If Your Package is Delayed.

Allow extra time for delivery. Packages usually arrive on or shortly after the estimated delivery date.

- Amazon-shipped packages: Wait for one more day.
- Third-party courier packages: Wait for five more days.

If Your Package Has In-Transit Issues.

Check your tracking status for specific messages and follow instructions based on what is mentioned.

If Tracking shows messages such as: "Problem occurred", "Returning to Seller", or "Undeliverable" order -

1. Verify your shipping address in [Your Orders](#).
2. Check that you entered a complete address with:
 - Building name or number
 - Street number
 - Area or locality
 - Nearest landmark
 - City, town, or village
 - Correct pincode

For more information about why packages become undeliverable, go to [Undeliverable Packages](#)

If the Package is marked as "Delivered" but you haven't received it.

Contact us within seven days of the order being marked as delivered. Go to [Find a Missing Package that Shows as Delivered](#) for more information.
